

Fixnetix Expands to Hong Kong Exchange and Clearing Ltd for Equities and Futures

Hong Kong & London, 28th March 2012

Fixnetix announced today access to Hong Kong Exchanges and Clearing Limited (HKEx) as a founding member of the HKEx Hosting Services Ecosystem. Equities and futures traders will be able to trade the Hong Kong markets using Fixnetix services from the HKEx data centre and any Fixnetix co-located data centre worldwide. The HKEx Hosting Services will offer connectivity to HKEx market data, trading and clearing systems, with cross connect provisioning between customers and Ecosystem service providers as well as 24/7 on-site monitoring and remote hands support.

“Hong Kong has always been a key part of the Fixnetix Asian expansion plan” says Alasdair Moore, Business Development Director. “Fixnetix is thrilled to join the member program of HKEx whilst our customers demand for equities and futures trading in Asia increases.”

Ryan Wuebbels, Head of Relationship Management for HKEx says “We welcome Fixnetix into the Hosting Services Founding Member Programme and look forward to the robust global connectivity, market data and financial technology capabilities they will bring to our Hosting Services Ecosystem.”

About Fixnetix

Founded in London in 2006, Fixnetix is a leading Managed Service Provider for the global financial community. Over the last eight years, Fixnetix has built a reputation as an award winning international technology vendor, supplying outsourced services for ultra-low latency trading, market data, hosting, infrastructure connectivity and risk management to prominent Investment Banks, Hedge Funds, Proprietary Trading Groups, Start Ups and Exchanges worldwide.
